

FUNCTION ES BLOW

- ▶ Electrically operated air-saving device for P6040 blow pump.
- ▶ Adjustable blow-pressure controlled 2/2 NO valve.
- ▶ Manometer for feed pressure control.

TECHNICAL DATA

Description	Unit	Value
Feed pressure, max.	MPa	0.7
Material		Al, PA, NBR, SS, POM, HDPE, PC, CuZn, PBT
Temperature range	°C	0-50
Signal range	kPa	15-130
Hysteresis	kPa	6
Voltage	VDC	24 (14-28)
Safety classification		IP40
Current consumption	mA	60
Ripple	V _{rms}	1
Display		LED indicator
Electric connection		DIN (c)

For dimensions, please go to data sheet for vacuum pump P6040.

ORDERING INFORMATION

Description
Available in product configuration, please go to data sheet for vacuum pump P6040.
